

**3-Way Auto Off**

The 3-way auto off function automatically switches the iron off after eight minutes of inactivity in an upright position and after 30 seconds of standing on its side or face down on the soleplate. A safety light guide will let you know when the iron is about to shut off.

**Product Benefits & Features****ThermoSafe™ hot base indicator**

The ThermoSafe hot base indicator lets you know exactly when the iron has cooled off enough to be stored safely (when it is under 40°C). No burning fingers, no worries after storage - how is that for a winning combination!

- Fine-mist spray
- Self clean
- 2200 Watt rated power
- Drip-stop system
- Vertical steam
- Spray function
- Anti-calc system
- Big water tank
- Variable temperature setting
- Pilot lamp

**XL Rubber stand**

Safety calls for steadiness. The XL Rubber stand helps the iron stand steady on any surface, preventing it from falling over and causing unnecessary damage.

**XL 300 ml Water Tank**

The easy to fill XL water tank makes ironing even more convenient – iron for longer without needing to refill. And with a powerful and consistent steam it's easier than ever to straighten out every wrinkle on your favorite clothes. More is more!
