

**Safety**

An iron designed to keep you safe – even when you don't think about it. The 3-Way auto-off function automatically switches the iron off after 8 minutes, when it is standing upright, and after 30 seconds when it is standing on its side or face down on the soleplate. A safety light guide will let you know when the iron is about

**Product Benefits & Features**

**Steady and Convenient**

Iron boards can sometimes be a shaky surface. Its large rubber stand helps the 4SafetyTMPrecision to stand steady on any surface. The easy-to-fill, extra large transparent water tank (350ml) allows you to iron longer without having to refill water - making ironing even more convenient.

- Fine-mist spray
- Self clean
- Drip-stop system
- Easy fill, anti-leak fill cap
- 2400Watt rated power
- Vertical steam
- Spray function
- Anti-calc system
- Auto steam setting
- Variable temperature setting
- Pilot lamp

**Precise**

The stainless steel tip gives you the power to iron precisely and safely every time. Reach up to the tip of collars, areas around buttons, or iron around a print. Ironing is even easier with this specially made precision tip.

**Efficient**

A 180g powerful steam shot helps you to get rid of wrinkles at the push of a button. And the 0-40g/min variable steam, distributed evenly through the 500 holes of the sole plate, straightens your clothes fast and efficiently.

**Product Specification**

Color	White
Voltage	220-240
Frequency	50/60
Power W	2400
Steam	Yes
Product Number Code	910 280 267
Dimensions HxWxD in mm	148x277x128.5
Net Weight	1.25
Bar Code	7332543418367
HS Code	85164000
