

Boils a cup of water in 45 seconds

The powerful 2400W heating system boils 200ml of water, enough for one cup of tea, in less than a minute. Now your favorite tea is a few seconds away.

Product Benefits & Features

One hand lid opening

The easy to reach opening button is placed conveniently on the handle of the kettle, for one hand use.

3-way auto shut-off

This water kettle has automatic shut-off in three ways: when the water is boiling, when you lift the kettle from the heating station and when there is no more water left in the kettle, thanks to the integrated Boil-Dry protection.

Extra large 1,7 l Capacity

The Expressionist kettle comes in extra large capacity of 1,7l. This is perfect when you need to heat up large amount of water.

- Removable scale filter
- On/Off switch with integrated pilot lamp
